[redacted] CONFIDENTIAL

25X1

25X1 9. [redacted] Received a call from Mr. Joe Murray, International Division, GAO, who said that General Giller of ERDA had referred him to CIA to obtain information on the effectiveness of export controls and of international safeguards and on unaccounted for nuclear materia Murray said GAO is doing a study on peaceful cooperation on nuclear energy for the House International Relations Committee and indicated that interest in the subject had been sparked by Senator Charles H. Percy (R., Ill.). I told Murray we would be back in touch with him. In response to my observation that I thought the Joint Committee on Atomic Energy had exclusive access to Restricted Data and this would seem to involve such material, Murray said that they had access to such information and the appropriate clearances.

25X1 10. [redacted] Called Julie Pineau, in the office of
25X1 Representative Paul N. McCloskey (R., Calif.), to arrange for an appointment for Messrs. [redacted] with Mr. McCloskey to discuss his 6 June 1975 request to the Agency. The Representative will not return until 8 July and Ms. Pineau will advise us when an appointment would be convenient.

25X1 11. [redacted] Called Bill Wells, Technical Consultant, House Committee on Science and Technology Subcommittee on Science, Research and Technology, and asked that he not send a formal request to the Agency concerning the study by the Subcommittee until we could talk further and get a better understanding of his request. (See Journal Item #11, 26 June 1975) I emphasized that the Agency might not be able to contribute to the study. He said he had been thinking it over since his call to me last week and he is leaning more toward not making a request on the Agency at this time. He asked that no action be taken and if he wants an Agency input, he will call back.

25X1 12. [redacted] Returned the earlier call of John Flint, House Select Committee staff, who was interested in a bibliography of works on the Agency in intelligence. I told him I thought he could get whatever he needed from the Library of Congress on an unclassified nature and he said he had already received a long listing from the Library but they referred him to CIA because of our "excellent library." I suggested he send to us the listing that he had been provided and we would augment it, but he said it was too bulky. I told him I would see what we could do and advised Walt Elder, Review Staff.

25X1 [redacted]
